

Dr. Navid Torabian

*"I
always
strive to
be great
at what
I do"*

Dr. Navid Torabian graduated from the University of the Pacific Arthur A. Dugoni in 2016. He recently completed an AEGD Surgical residency at the VA Long Beach Medical Center in Long Beach, California which included oral surgery, endodontics, periodontal and general rotations. He is very skilled in all aspects of implant dentistry.

Dr. Torabian loves to play soccer! He had signed a one-year contract with a professional soccer team before attending dental school. However, halfway through that year, Dr. Torabian was injured and that led him to explore Dentistry.

Dr. Torabian grew up in the Sacramento region and after being away from home for the past decade, he is eager to come back home and be near his family.
